<b>Dynamic 1 Twin</b>		
AH17D1HDA2F	Vertically retractable 17.3" double sided widescreen Full HD monitor, to be integrated into furniture. DVI-I and DVI-D HDCP compliant inputs. Lift system with electrical engine activated through integrated push buttons in the cover plate, external GPI controls or AHnet Protocol.	£4,149.00
AH19D1HDA2F	Vertically retractable 19" double sided widescreen monitor, to be integrated into furniture. DVI-I and DVI-D HDCP compliant inputs. Lift system with electrical engine activated through integrated push buttons in the cover plate, external GPI controls or AHnet Protocol.	£4,249.00
AH22D1HDA2F	Vertically retractable 21.5" double sided widescreen Full HD monitor, to be integrated into furniture. DVI-I and DVI-D HDCP compliant inputs. Lift system with electrical engine activated through integrated push buttons in the cover plate, external GPI controls or AHnet Protocol.	£4,349.00
<b>DynamicSignatureDisplay</b>		
AH19DSDA2F	Vertically retractable 19" double sided widescreen monitor, to be integrated into furniture. Fitted with dual embedded computers. DVI-I and DVI-D HDCP compliant inputs. Lift system with electrical engine activated through integrated push buttons in the cover plate, external GPI controls or AHnet Protocol.	£4,499.00
<b>DynamicChairDisplay</b>		
AH15DCD	Professional electrically retractable 15.6" monitor, for integration into the armrest of a chair.	£3,749.00
<b>DynamicChairDisplay - Options</b>		
CCUSBPwerDCD	USB power integrated on the cover plate.	£199.00
<b>Dynamic Vision</b>		
AHDV01	Professional motorised video conference camera holder and cover for (upward movement) wall integration. External GPI, RS-422, Infrared. Customisable cover.	£1,299.00
AHDV02	Professional motorised video conference camera holder and cover for (downward movement) wall integration. External GPI, RS-422, Infrared. Customisable cover.	£1,299.00
<b>Dynamic Tab Lift</b>		
AHD2TL	Professional electrically retractable tablet holder, with 20 degrees of inclination, in furniture integration, Lift system with electrical engine activated through push buttons integrated in the cover plate, external GPI controls or AHnet Protocol.	£1,499.00
<b>Dynamic Talk</b>		
AHDTLS	Professional electrically retractable holder for gooseneck microphones with an XLR connection and a maximum length of 400 mm. can be operated in two operating modes (PA & Conference).	£1,099.00
AHDTLM	Professional electrically retractable holder for gooseneck microphones with an XLR connection and a maximum length of 500 mm. can be operated in two operating modes (PA & Conference).	£1,129.00
AHDTLL	Professional electrically retractable holder for gooseneck microphones with an XLR connection and a maximum length of 600 mm. can be operated in two operating modes (PA & Conference).	£1,179.00
<b>Dynamic TalkH</b>		
AHDTHS	DynamicTalkH is a horizontal lift for gooseneck microphones of upto 400mm, PA and Conference modes, controllable via AHnet.	£1,499.00
<b>Dynamic TalkH - Options</b>		
UI	Assembled for mounting from the underneath of the furniture, and with the cover plate prepared to be veneered,	POA
MC	Matte cover plate	£109.00
<b>MicConnect</b>		
AHMC	Microphone surface mount, with shock mounted XLR connection, push to talk button and microphone status LED's.	£469.00
<b>MicConnect - Options</b>		
MC	Matte cover plate	£49.00

<b>Dynamic Share</b>		
AHDL	DynamicLoop allows distribution of HDMI and control signals in a daisy chain loop topology, using HDMI cables. For additional flexibility, an external HDMI signal can be displayed locally. DynamicLoop can be integrated into any Arthur Holm monitor motorised monitor, removing the need for an additional power supply or mounting accessories.	£379.00
AHDSS	DynamicShare allows selection and distribution of a HDMI and control signal in a daisy chain loop topology, using HDMI cables. For additional flexibility, an external HDMI signal can be displayed locally. Multiple internal connectivity options including, one external HDMI input. HDMI loop input and output. DynamicShare can be controlled via local hard buttons and the serial connection. Control signals are transmitted through the HDMI cable, so no additional control cables are required to operate the system. DynamicShare can be integrated into any Arthur Holm monitor motorised monitor. Optional accessories for extended flexibility.	£539.00
AHDSSA	Stand alone box version of the DynamicShare, allowing connection of external HDMI displays and sources. Provides three HDMI inputs, one HDMI output, along with loop HDMI in/out. Can be operated externally through a serial signal, or GPI interface. Backwards compatible with AHnet, to integrate control of audio only devices, like DynamicTalk. External power supply included.	£449.00
<b>Dynamic Share - Accessories &amp; Options</b>		
AHISB	HDMI retractable cable integrated into the cover plate. Internal connection to DynamicShare. A dual user version is available, allowing two users to share one monitor, with independent inputs, that can be shared as individual DynamicShare devices. In this mode, only one DynamicShare board is required to connect two HDMI retractable cables.	£579.00
AHHRC	Input selection toggle button integrated into the cover plate of the Arthur Holm monitor. In a multiple input configuration, this option can be used to toggle between different inputs on a DynamicShare board.	£89.00
AHHC	Fixed HDMI connector integrated into the monitors cover plate allowing a user to share this input to the rest of the devices.	£139.00
AHDSPB	Stainless steel priority button integrated into the cover plate. This button can be used to lock other user's share buttons.	£49.00
AHBTEK	Set of one transmitter and one receiver of HDMI signal over CAT5 cable using HDBaseT technology. This kit allows extending DynamicShare loop. The Receiver can be powered remotely over the HDBaseT link.	£379.00
AHSACB	Stand alone control box for sharing input selection.	£219.00
AHSACBP	Stand alone control box for sharing input selection and priority.	£259.00
<b>ERT Interface &amp; AHnet</b>		
ERT	The ERT interface is used to control, configure and diagnose ARTHUR HOLM monitors. The interface converts between RS422 protocol and IP through twisted pair CAT-5 Ethernet cable. ERT units can also provide an "Auto Check" function for remote diagnose and alarm system.	£749.00
AH mcs	Arthur Holm Net software is supplied with the ERT interface. The AH mcs software is a Windows based software that controls and configures the monitors.	POA
<b>AH1</b>		
AH12TX16GA	Manually foldable 12.1" widescreen monitor, anodised aluminium finish with dark grey iron base, anti glare glass, DVI-I and DVI-D HDCP compliant inputs.	£1,899.00
AH17TX16GA	Manually foldable 17.3" widescreen Full HD monitor, anodised aluminium finish with dark grey iron base, anti glare glass, DVI-I and DVI-D HDCP compliant inputs.	£1,899.00
AH19TX16GA	Manually foldable 19" widescreen monitor, anodised aluminium finish with dark grey iron base, anti glare glass, DVI-I and DVI-D HDCP compliant inputs.	£1,999.00
