

TOP 10

Reasons to buy...

AUDAC NOBA8A

1. Beautiful, Innovative Design

The curved aircraft grade aluminium body of the NOBA8A is a tonic to the industrial cuboid subwoofers we have endured until now. This is a subwoofer you don't need to hide.

2. No Equipment Rack Required

The NOBA8A is an active subwoofer that has its amplification and processing electronics built-in. This means that you don't need to find a place to locate bulky amplifiers and signal processors.

3. Connect up to 8 Satellite Speakers for a Complete Audio Solution

NOBA8A has an additional two 150W amplifier channels that can power AUDAC satellite speakers including surface and flush mount options.

4. Big Sound in a Small Package

The NOBA8A is under 150mm in its smallest dimension and when coupled with 2" CELO, MERO or ATEO satellite speakers you have a system that can replace big box speakers yet is very discreet

5. Mount Virtually Anywhere

The NOBA8A comes complete with rubber feet for floor or under seat mounting and a wall mount bracket. An optional ceiling mount bracket also allows the sub to be mounted overhead

6. Acoustic Optimisation with WaveDynamics™

AUDAC WaveDynamics presets can be loaded in to the NOBA8A via USB mass storage devices. These presets optimise the performance of NOBA8A and the connected satellite speakers.

7. Remote Controllable

The optional RMT40 wireless remote control allows the system to be configured once installed and provides user control of the global system volume.

8. Easy to Specify for Your Venue

We have created system packs comprising of NOBA8A and different satellite speaker options. Just select the package that best suits the size of your venue and how you want your satellites mounted.

9. Energy Efficient - Save Money and the Environment

By employing the latest Class D amplifier technology, AUDAC has ensured that NOBA8A has earned Energy Star certification, the recognised mark of energy efficient products.

10. Reliability Backed with a 5 Year Warranty

All AUDAC loudspeakers and electronics are covered by a 5 year warranty giving you and your customer peace of mind.
